

Find the slope using the slope formula.

3

Slope Formula:

7.) $(19, -2)$ and $(-11, 10)$	8.) $(8, -4)$ and $(4, 2)$	9.) $(6, -12)$ and $(15, -3)$
10.) $(1, -19)$ and $(-2, -7)$	11.) $(12, -18)$ and $(-15, -18)$	12.) $(17, -13)$ and $(17, 8)$
13.) $(9, 3)$ and $(19, -17)$	14.) How can someone remember the slope formula? Explain a good way to remember it. (Do not just say memorize the formula!)
