

Diagram A

Geometry
Review Basic Vocabulary

Name: _____
Date: _____ Period: _____

Complete the diagram with the appropriate labels and markings.

1. \overline{VT} bisects $\angle SVU$

2. E is between F and A. A is the midpoint of \overline{EM} .

3. \overline{AS} and \overline{AM} are opposite rays.
 \overline{AS} and \overline{AP} are the same ray.

4. $\angle BUC$ and $\angle CUS$ are adjacent angles.
 $\angle BUS$ is an obtuse angle.

5. \overline{MP} and \overline{SN} intersect at E to form a right angle.

6. $\overline{XZ} \perp$ to plane R at Y .

7. $\overline{PQ} \perp \overline{PR}$ and $\overline{PQ} \parallel \overline{SR}$

8. A, B, D lie between C and E on \overline{CE} .
 \overline{AD} and \overline{AB} are opposite rays.
 \overline{AD} and \overline{AE} are the same ray.

List all information given by the marks on the diagram.
